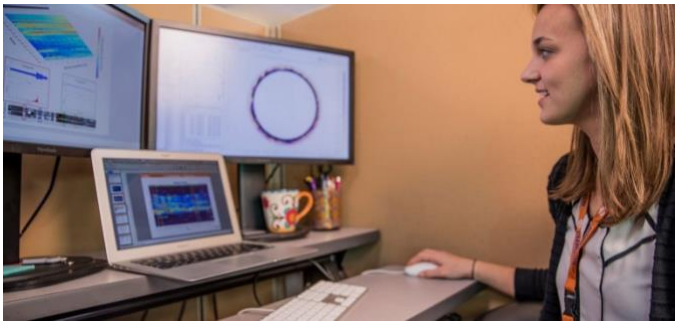
Graduate Internship Program



Graduate Applicant Guide

Build experience in your field at Los Alamos National Laboratory. Summer and year-round internships offer domestic and international students work related to their graduate studies. In some cases, you may conduct your master's or doctoral thesis research at the Lab.

- For entering and current graduate students and post-master's students
- Technical and professional opportunities
- Summer internships typically last 10 weeks
- Work closely with a mentor and co-mentor

Application Dates

Term	Opens	Closes
Year-round	November 1	February 19

Check Your Eligibility

Graduate Internship Program applicants must:

- Be enrolled in an accredited graduate degree-granting program.
- Be enrolled in at least 6 semester credit hours or the full-time equivalent in an accredited degree program or international equivalent.
- Provide proof of matriculation if entering a graduate program.
- Have and maintain a cumulative GPA of 3.2 or higher on a 4.0 scale, or equivalent.
- Pass a new employment drug test.
- Post-master's applicants: review eligibility information online.

Prepare Your Application

Resume

- Highlight your skills and relevant academic or work experience.
- Cumulative GPA and relevant coursework
- Honors, awards, and accomplishments
- Extracurricular activities

Transcript (official or unofficial)

- Include grades for all completed courses.
- List all courses you are currently taking.

Personal Statement

- In one page or less, share your experiences and aspirations. Consider including:
  - Academic background and career goals
  - Professional interests
  - Community service and impact
  - Life experiences

Connect with Potential Mentors

Find LANL work that matches your interests. Reach out to potential mentors about internship opportunities. Explore these resources:

- Lab Organizations
- Los Alamos Authors
- LANL LinkedIn
- LANL YouTube channel
- Ask professors to introduce you to LANL colleagues.
- Meet LANL staff at career fairs and conferences.
