Summary

After a very warm August, September was near normal, with the mean temperature only 0.2°F above average. This was a notable change from many recent Septembers that were significantly warmer than normal.

For the second straight month, Los Alamos saw slightly above average precipitation, continuing the yearly total close to normal. As shown below, the U.S. Drought Monitor slightly improved the drought conditions in Los Alamos County, which is no longer experiencing Extreme Drought as it was last month.

Intensity:

None	D2 Severe Drought
D0 Abnormally Dry	D3 Extreme Drought
D1 Moderate Drought	D4 Exceptional Drought
