Fundamental questions
Elemental answers
Manuscript accepted? Congratulations!

It is now time to choose your article licence. Corresponding authors from this institution can make articles gold open access at no cost, because your institution has already paid the article processing charge.

To take advantage of this, click the link in your acceptance email and follow these steps:

**Step one: go online**

Your link will take you to this web page.

Your name should be listed as the corresponding author.

Scroll to the bottom and press start now.

Click the "Start Now" button to choose a publication route and sign your licence to publish.
Step two: pick your route

Our system will automatically identify you as being from a Read & Publish institution based on your email address.

Select gold open access and press continue.
What happens if I select standard publication?

If you pick standard instead of gold open access, you can continue, but bear in mind that your article will only be accessible to readers who subscribe to your chosen journal.

```
You have selected that you don't wish to comply with your institute's preferred mode of publication (provided at no additional cost to yourself through your institute's Read & Publish agreement with us). Please confirm that you wish to continue.
```

Step three: sign your license

If you picked gold open access, you will only be shown relevant licence options.

```
SIGN YOUR LICENCE ONLINE
We offer a choice of two Creative Commons licences. Creative Commons is a global non-profit organisation, offering free open access licences. Further information is available on the Creative Commons website. You may select the appropriate licence according to your funding body and research institute requirements or your personal choice.
```

Check the full terms of each licence.

```
CC BY
Creative Commons Attribution

Under this licence other users are free to:
- copy and redistribute the material
- reuse, adapt, and build upon the material for any purpose, even commercially

The user must give appropriate credit to the original copyright owner

Select CC BY

CC BY-NC
Creative Commons Attribution Non-Commercial

Under this licence other users are free to:
- copy and redistribute the material
- reuse, adapt, and build upon the material but not commercially

The user must give appropriate credit to the original copyright owner

Select CC BY-NC
```

Once you are happy, agree to your preferred option and press continue.

```
Select an open access licence. You will then need to agree to the licence terms.
```

CONTINUE
Step four: confirm your choices

Double-check that your publication route and licence are correct.

The payment box will confirm that all charges have been covered by your institution.

Press confirm and finish to complete the steps.

Unanswered questions?

If you have a question about any of the steps covered here, or a question related to our Read & Publish scheme, please don’t hesitate to ask.
