Undergraduate Internship Program

Los Alamos NATIONAL LABORATORY

Undergraduate Applicant Guide

Build research experience in your field at Los Alamos National Laboratory (LANL) while pursuing an associate or bachelor's degree. The undergraduate internship program welcomes domestic and international students.

- For graduating high school seniors, current undergraduates, and post-associate's and post-bachelor's applicants
- Technical and professional opportunities
- Summer internships typically last 10 weeks
- Work closely with a mentor and co-mentor

Application Dates

Term	Opens	Closes
Year-round	November 1	February 19

Check Your Eligibility

Undergraduate applicants must:

- Be enrolled in an accredited undergraduate degree-granting program
- Be enrolled in at least 12 semester credit hours or the full-time equivalent in an accredited degree program or international equivalent
- Provide proof of matriculation if entering your first year of an undergraduate program.
- Have and maintain a cumulative GPA of 2.75 or higher on a 4.0 scale, or equivalent
- Pass a new employment drug test
- Post-bachelor's: eligibility information

Prepare Your Application

Resume

- Highlight your skills and relevant academic or work experience
- Cumulative GPA and relevant coursework
- Honors, awards, and accomplishments
- Extracurricular activities

Transcript (official or unofficial)

- Include grades for all completed courses
- List all courses you are currently taking

Personal Statement

- In one page or less, share your experiences and aspirations. Consider including:
  - Academic background and career goals
  - Professional interests
  - Community service and impact
  - Life experiences

Connect with Potential Mentors

Find LANL work that matches your interests. Reach out to potential mentors about internship opportunities. Explore these resources:

- Lab Organizations
- LANL LinkedIn
- LANL YouTube channel
- Ask professors to introduce you to LANL colleagues
- Meet LANL staff at career fairs and conferences
